COWBOY PISTOL SIDE MATCH

Wild Bill Hickok Card Game

Hickok, according to most references, carried a pair of 1851 Navy Colt's that he emptied and cleaned every day. This may have been one of the ways he emptied those pistols and kept his aim true.

Starting position is with your back to the target, standing three paces away.

At the buzzer, turn, draw your pistol and fire five rounds into the playing card on the silhouette. You have 15 seconds to fire all five rounds. Winner is the playing card with the most holes in the smallest group.
